

The Department of Conservation and Natural Resources (DCNR) in partnership with the Pennsylvania Recreation and Park Society (PRPS) proudly presents a series of new grant workshops for the Community Conservation Partnerships Program (C2P2) which is funded in part by the Keystone Recreation, Park and Conservation Fund. These workshops will provide updates on the new C2P2 application, grant manual and website resources and provide advice to you on how to create "excellent," fundable projects.

DCNR is committed to funding projects that implement priorities from the DCNR Action Plan, projects that focus on building sustainable communities and projects that promote sound land-use practices. Attendees will learn about DCNR's grant program priorities, program changes and how to develop a competitive project with examples of successful projects.

Do not miss this fantastic opportunity to learn how to develop an "excellent" project and how the Keystone fund can help meet the recreation and conservation needs of your community.

For attendees looking for help in completing the C2P2 Grant Application form, contact DCNR at 717-787-7672 for your Regional Advisor.
